

Loh and Sons Paint Co (S) Pte. Ltd. has over 30 years of history in the paint business and we support the construction and marine industry with cost effective paint, primer and solvent products through our flagship Cougar Brand. Through the years we have successfully transformed ourselves from becoming a backyard manufacturer to a leading supplier of industrial paints and solvents.

Cougar Brand

COUGAR

**YOUR TRUSTED PARTNER FOR
INDUSTRIAL COATINGS AND SOLVENTS**

COUGAR'S RANGE OF PRODUCTS

Marine Enamel Paints

- Designed for protective and marine uses
- Long lasting colour and gloss finish
- Higher coverage and ease of application
- Recommended for metal and wood substrates

Road Line Paints

- Good hardness and wear resistance
- Fast drying time
- Excellent weathering resistance
- Good adhesion on bitumen and concrete substrates
- Uniform matt finish

Signature Enamel Paints (Glossy and Matt)

- Suitable for industrial and decorative uses
- Good coverage and ease of application
- Good glossy and matt finish

Red Oxide Primers

- Economical primer
- Fast drying time
- Ease of application
- Good adhesion on ferrous metal substrates
- Good corrosion resistance

Metallic Paints and Zinc Spray

- Good lustre and brightness
- Fast drying time
- Ease of application
- Good adhesion on most ferrous metal and non ferrous metal substrates
- Smooth matt finish

Bituminous Paints

- Specifically designed for sealing cracks
- Provides excellent corrosion and waterproofing protection
- Suitable for metal and concrete substrates
- Good resistance to seawater immersion

Alkyd and Etching Primers

- Fast drying time
- Ease of application
- Good adhesion on most metal substrates
- Smooth matt finish

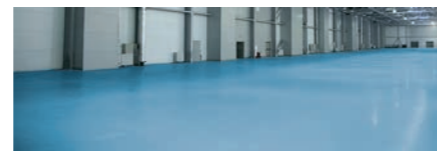

Paint Remover

- Heavy-duty paint remover
- Removes most types of coatings
- Ease of application
- Recommended for use on metal substrates
- Suitable for industrial and marine uses

Thinners and Solvents

- Specially formulated solvent blend recommended for thinning of paints, lacquers and cleaning of painting tools
- Suitable for cleaning of substrates prior to painting
- Helps in improving flow and levelling of paint
- Imparts fast drying properties
- Suitable for alkyd enamel paints and industrial lacquers types

Epoxy Paints

- Excellent film hardness
- Fast drying time; allows foot traffic after 24 hours
- Good resistance to chemical splashes
- Good scratch resistance and ease of surface cleaning
